

Sai Sathwik

Software Engineer | Python Developer | AI Application Developer
Mobile: +91 8341672083 | dennysathwik@gmail.com | [linkedin-profile](#) | [portfolio.site](#)

SUMMARY

Computer Science graduate passionate about building scalable software and AI-powered web applications using Python, JavaScript, Flask, SQL, and modern LLMs. Experienced in building and deploying full-stack applications with Gemini API and TensorFlow, backed by strong software engineering fundamentals in OOP, DBMS, Operating Systems, Computer Networks, and SDLC.

EDUCATION

Malla Reddy College of Engineering and Technology <i>B.Tech in Computer Science Engineering, CGPA: 7.87/10</i>	Hyderabad, Telangana 2022-2026
Nalanda Junior College <i>Intermediate, Percentage: 78</i>	Kothagudem, Telangana 2020-2022
Sri Vidya School <i>SSC, CGPA: 9.5</i>	Kothagudem, Telangana 2020

PROJECTS

- FinAI Advisory** | *Python, Flask, SQLite, Gemini API, Render* [\(Live Demo\)](#)
- Developed an AI-powered personal finance platform using Flask, SQLite, and Gemini API for expense tracking and personalized financial insights.
 - Engineered 20+ RESTful API for authentication, transactions, account management, and AI-driven financial recommendations.
 - Built LLM-powered spending analysis with budgeting, risk assessment, and financial reports.
 - Deployed on Render with persistent database storage, enabling real-time cloud-based user interactions.
- Pneumonia Detection System** | *TensorFlow, MobileNetV2, Streamlit, Python* [\(Live Demo\)](#)
- Developed a pneumonia detection application using MobileNetV2 with transfer learning trained on the Kaggle Chest X-ray dataset.
 - Fine-tuned the model with progressive layer unfreezing, Adam optimization, and Keras data augmentation, achieving 93% validation accuracy.
 - Built an end-to-end Streamlit application with image preprocessing, prediction, confidence scoring, and X-ray visualization.
- Basket Buddy** | *HTML, CSS, JavaScript, MongoDB* [\(Live Demo\)](#)
- Developed a responsive e-commerce frontend with product search, filtering, wishlist, shopping cart, and category browsing.
 - Implemented dynamic search and filtering features to improve product discovery and overall user experience.
 - Currently extending the project into a full-stack application with backend services and authentication.

TECHNICAL SKILLS

Languages : Python, JavaScript, SQL
Web Development : HTML5, CSS3, Flask, REST APIs
Database : MongoDB, MySQL, SQLite
Cloud & Developer Tools : Git, GitHub, Render, Oracle Cloud, VS Code, Claude, Codex, IBM BOB
AI & Machine Learning : TensorFlow, MobileNetV2, NumPy, Pandas, Prompt Engineering, Gemini API
Core CS : OOP, DBMS, Operating Systems, Computer Networks, Data Structures & Algorithms, SDLC

CERTIFICATIONS

Oracle Cloud Infrastructure: Oracle
Cloud Operations on AWS: Coursera
Cisco Introduction to Networks: Cisco Networking Academy
Cambridge English C2 Proficiency: University of Cambridge
